

# HAVEN BEACH CLUB

## Members and Guests

For your safety and the safety of your children HBC recommends that water shoes be worn in the bay at all times. This is **required** for all participants in our sailing program. Over the years and certainly since Sandy there is the potential that foreign materials will be encountered on the bay floor. This could include nails, glass and other dangerous items.

If you chose to allow your children to play in the edge of the bay or participate in any bay activities without water shoes please note you are doing so at your own risk.
